Subject: Slanderous Accusations

Dear Sir , I am a trustee of NEMT and as such am one of the people against whom you are making the grounds less, mindless accusations.

My previous occupation and position make these accusations all the more offensive and a greater attack on my integrity . Please understand that you cannot express this type of material without putting yourself in an untenable position when you are asked to prove these allegations.

This sort of behavior can and will have consequences.

I suggest that a sincere apology to the other members of NEMT would be the order of the day.

Yours Sincerely Mr K. Barnard. NEMT
