Subject: Disappointing visit to NEMT 02-Aug- 25

Dear Alec,

I was most upset to find after I had travelled all the South Shields last Saturday to see how your volunteers were getting on with the restoration of the Golden Gleam only to find both the shed and the slipway locked up and it appeared that everyone had taken a break for the summer. It was only when I noticed the Rachel Douglas poorly moored in the river end of an old dock that I realised that something was wrong and I have taken the trouble to put the detail behind my disappointment in the [Gremlin's Tale - attached](#).

Regards
Mick Dawson
